## Commuters Again To Hold Football Dance

**5:15 Club Promises  
Gala Friday Night  
At \$1.65 Per Couple**

In honor of Technology's football teams, the second annual Football Dance of the 5:15 Club will be held in Morss Hall of Walker Memorial next Friday night, Leon Mayers and his orchestra will provide music for the affair from 9:00 P.M. until 1:00 A.M.

Rumors that a full-size, live Beaver will be presented at the dance for all to view and admire have been circulating around the basement of Walker, particularly in the vicinity of the 5:15 Club Room. Dance Committee Chairman Constantine Maletskos would neither confirm nor deny the appearance of the beaver, when contacted at a late hour last night.

### Queen to be Chosen

Crowning of a dance queen chosen from among the attending guests is to be the climax of the evening. Arrangements have also been made for the presentation of a door prize.

Technology's "Novars," including their coach Sergeant George C. Hunt, will be guests of honor at the dance. Plans have been made for all to sing the traditional Technology songs.

Tickets are on sale in the Main Lobby of Building 10 and in the 5:15 Club Room, at \$1.65 per couple.

Chaperones for the Dance announced last night include Professor Avery A. Ashdown, Major and Mrs. J. F. Cook, Jr., Professor and Mrs. Raymond D. Douglass, and Professor and Mrs. F. Alexander Magoun.

## Sophs Dance To Krupa's Band

**Publicity Results  
In Large Attendance  
At Annual Affair**

Gene Krupa, at his best, set the pace for the Sophomore Prom, as 360 couples made merry at the Statler last Friday night. In the resplendent atmosphere of the Imperial Ballroom, a good cross section of all undergraduate classes of the Institute began celebrating at 9:00 P.M. and continued till 2:00 A.M.

Under the able guidance of Lewis Tyree, Jr., '44, the publicity committee staged one of the best and most effective advertising campaigns in recent years. "The Shaft" attracted wide attention as did the parking tickets. This publicity contributed much to the success of the Prom.

(Continued on Page 4)

## Dr. Smith Speaks On Metallurgy

Dr. Cyril S. Smith, an authority on the early history of metals, will speak on "Metallurgy from 1100 to 1800 A. D." at the first meeting of the Technology chapter of Sigma Xi, honorary scientific society, at 4:00 P.M. on Friday, November 21, in Room 6-120.

Dr. Smith's lecture is the first in a series of three covering the theme, "The Relation Between Metals and Civilization."

Dr. Smith, who has been a research metallurgist on the staff of the American Brass Company since 1927, will illustrate his lecture with lantern slides and books from his distinguished collection of early writings on metallurgy. He is a native of England, and holds the degree of Doctor of Science from Technology.

## No Issue Next Friday Because Of Thanksgiving

As Governor Leverett Saltonstall has finally given in to the administration's request for an early Thanksgiving, and left only four states holding out for the 27th, Thanksgiving will be celebrated with a holiday at Technology this Thursday.

This day being the day on which The Tech would ordinarily go to press, there will be no issue of this paper next Friday, November 21. The next issue will appear one week from today on Tuesday, November 25.

## Frosh To Debate B. C. Here Today

**Two Debates Scheduled  
For The Airwaves  
During Next 3 Days**

The first M.I.T. freshman Intercollegiate debate of the season will be held at 5:00 P.M. today in Litchfield Lounge of Walker Memorial with Boston College. The topic is "Resolved: That the United States should enter into a permanent union with Great Britain". The Technology team, composed of Jack Uretsky and James B. Patrick, will present the affirmative. The style will be the conventional one of two men per team with a total of 30 minutes allotted to each team.

The following debates are also scheduled for the next three days: The varsity team of Ward J. Haas, '43, and George M. Musgrave, '43, will debate Boston University over station WHDH at 3:45 on November 18 on the topic "Resolved: That the United States should declare war on Japan." On November 19 Raymond F. Frankel, '43, and Raymond M. Redheffer, '43, will participate in a debate with Boston University at Walker.

### Emerson Debate on Air

At 3:45 P.M. November 20 Philip J. Bendt, '42, and John L. Hummer, '43, will debate with Emerson over station WAAB on the topic, "Resolved: That the federal government should initiate a nation-wide program of socialized medicine."

With the exception of today's freshman debate all the other debates will be conducted according to the Oregon discussion system.

## Billy, Not Jumbo, Trails Ed Vetter After Soph Prom

For desire of better company after the Soph Prom, a Billy Goat of dubious origin set hopefully on the trail of Edward Oswald Vetter, '42, who, resplendent in white tie and tails, was stalking along Commonwealth Avenue after having bid farewell to his lady-fair at that inevitable Pioneer Hotel. Billy, letting out a piercing baa-aa-aa, found Vetter, once astonishment had left his befuddled mind, willing to talk business to any fellow-goat.

But even then the psychology of a goat at 3:00 A.M. somewhat stumped Ed, and matters became acute when a wayfarer pulled up, inquired, "Your goat, bud?" Our formal friend, not the goat, did not wish to let anyone horn in on his find-of-the-season, so he attempted to lead the beast into a dark alley, but matters, as usual, got out of hand. Billy apparently finding Ed's tactics a little too crude, galloped off in the direction of the nearest police station. Vetter, suddenly remembering a rush engagement in some other place, set off at quickened pace . . . in the opposite direction.

## Tau Beta Pi Elects Members

**Honorary Engineering  
Society Accepts 13  
Seniors, 3 Juniors**

The election of 13 Seniors and 3 Juniors to Tau Beta Pi, honorary Engineering fraternity, was announced last night. The election of these Seniors brings the total number of Senior members of the Technology Chapter of Tau Beta Pi up to their full complement of 30. The 3 Juniors pledged to the Society at this time are honorary members of the group.

The Seniors chosen for membership are: Donald C. Berkey, John R. Davis, Edward P. Holland, Alphonse P. L. Hotte, Robert I. Jacobson, Charles F. Kelley, Jr., Conrad A. Lau, Wendell E. Phillips, Jr., Charles S. Ricker, Charles A. Speas, Arthur H. Sweeney, Jr., Owen W. Welles and Ray O. Wyland, Jr. Juniors elected to the society are: Raymond F. Frankel, Jr., Clinton C. Kemp and Kenneth R. Wadleigh.

### Scholastic Requirements

New members of the Tau Beta Pi are elected from the upper fifth of the Senior Class and from the upper eighth of the Junior Class, of the Engineering courses of the Institute.

While elections to Tau Beta Pi are predicated by the scholastic requirements, members are chosen on the basis of character and their promise of becoming "outstanding citizens in society as well as in engineering."

New pledges are required to write a theme on some contemporary subject, and must undergo an informal initiation. A meeting for all new pledges of Tau Beta Pi, will be held at 7:30 P.M. tonight, in Crafts Lounge of the Senior House.

## Dormitory Men Meet Professors

**First In Series Of  
Bull Sessions Held  
Last Night In Walker**

A good meal and a good talk is the summation of the first Bull Session Dinner of the season which was held in Pritchett Hall at 6:00 o'clock last night. Emilio Touche, '42, major domo of the banquet, commented that "the dinner is a success from every angle, and we look forward with pleasure to the next one."

Beginning with the usual forced smiles and tears of the forgetfulness, the atmosphere quickly lost its tenseness, and repartee everyone settled down for a pleasant evening. Among the professors who appeared to be enjoying themselves were Avery A. Ashdown, James A. Beattie, Ralph G. Hudson, Joseph H. Keenan and Ernest H. Huntress.

## Novel Airplane To Be Subject Of Professor Koppen's Lecture

To acquaint students of aeronautics with one of the most recent developments in their field, the M.I.T. student branch of the Institute of Aeronautical Sciences is sponsoring a lecture on "The Design of The Skyfarer" to be given by Professor Otto C. Koppen of the department of Aeronautical Engineering, at 5:00 P.M. tomorrow in Room 3-270.

The Skyfarer is a new type of plane, designed by Professor Koppen for the Bell Aircraft Corporation of Lowell, Mass. Essentially the plane is a simplified form of the conventional light airplane, with new features which make it readily adaptable to pilot training.

### Side By Side Instruction

Unlike most two-place aircraft, the Skyfarer's pilot and passenger sit side-by-side, which allows an instructor

## Reduced Prices Prevail As Fall Option Sales Start For Senior Week

### Senior Picture Orders To Be Taken Nov. 27-28

All Seniors who had their pictures taken by the Technique photographer during his last visit should receive their proofs within the next few days. The Zamsky Studios will have a representative in the Main Lobby of Building 10, Thursday, November 27, and Friday, November 28, to pick up these proofs.

Orders for pictures as well as placement pictures may be made at this time. Whether the Senior places an order or not, he must return his proofs. The only opportunity to do this will be on the above dates.

There are a great many placement pictures in the Technique office, Room 309, Walker, which may be collected any weekday between the hours of 2:00 P.M. and 6:00 P.M.

## Dr. J. H. Robinson Is To Discuss Negro Minority

**T. C. A. Lecture  
Starts At 4:00 P.M.  
Today In 10-250**

Dr. James H. Robinson, one of the outstanding authorities on the Negro minority question, will speak today at 4:00 P.M. in Huntington Hall, Room 10-250. His topic is to be "The Negro and National Defense," and the lecture, sponsored by the T.C.A., is open to all members of the faculty and the student body.

Dr. Robinson is a graduate of Lincoln University, Class of 1935, and the Union Theological Seminary, Class of 1938. In his present position as minister of the Church of the Master, in New York City, he has ample opportunity to observe the relations between the Negro race and the present defense effort.

### Owen to Speak

William W. Pugh, president of the T.C.A. speakers bureau, announces that George Owen, Jr., Technology's hockey coach, has been invited to speak at the annual football banquet at Cushing Academy.

At a recent meeting of the T.C.A. Freshman Cabinet, the following officers were elected: president, Edwin B. Greene; vice-president, G. Kendall Parmelee; secretary, Henry M. Paynter; and treasurer, John M. Embree, all of the Class of 1943.

## Committee Men Are Selected At Meeting Friday Night

Events of Monday, December 1 will serve as the first indication that the undergraduate career of the Class of 1942 is nearing an end. On this day options for the annual Senior Week festivities go on sale. Following the second meeting of the recently elected Senior Week Committee, it was announced last night that the fall option sales at reduced prices would be held from Monday through Friday the week of December 1.

At the first meeting Friday night, S. Young Tyree was elected chairman of the Senior Week Committee. Last year Tyree was the Junior member of the 1941 Committee. At the same meeting, Robert B. Rumsey, '43, was chosen as this year's Junior member, this position automatically making Rumsey treasurer of the Committee. Harry E. Knox, Jr., was elected by the committee members to serve as secretary.

### Sub-Chairmen Chosen

Nine sub-committee chairmen were chosen at the meeting last night. Carl L. McGinnis will head the Senior Ball committee, while John J. Quinn is in charge of publicity. Paul M. Bruck-

(Continued on Page 4)

## Gahan Signed For Xmas Dance

**Novel Decorations  
To Be Featured  
On December 12**

Don Gahan and his orchestra will furnish the tempos for the annual Christmas Dance to be held in Walker Memorial from 9:00 until 2:00 A.M. on the evening of December 12, it was announced last night.

According to Gregory G. Gagarin, '43, the decorations for the affair will be quite novel and on a Christmas motif. He said that this dance will be even better than last year's, which featured a quartet singing Christmas Carols, and a synthetic snow-storm. Hans R. Wittels, '43, and John A. Thoele, '43, are in charge of the decorations.

### Committee Members

Other members of the committee are Bruce T. Benepe, '44, Paul R. Coulson, '43, Richard M. Feingold, '43, Charles C. Littlefield, Jr., '44, John G. McMullin, '43, Bert E. Picot, '43, Elbert B. Pritchard, '44, Caspar C. Schneider, Jr., '44, Eugene A. Schnell, '44, William B. Terry, '43, and Kenneth L. Warden, '43.

Tickets, costing \$1.75 each will go on sale in the Main Lobby of Building 10 on this coming Friday, November 21. They may also be obtained from members of the committee.

## Eta Kappa Nu Names Ten Upperclassmen

Three Seniors and seven Juniors were tentatively selected for membership in Eta Kappa Nu, honorary electrical engineering society, it was announced. These students, whose final election is dependent upon fulfillment of initiation requirements, were chosen as being the outstanding electrical engineering students, who show most promise of becoming leaders in their field after graduation.

The ten selectees include: Seniors—Alan B. Macnee, Warren W. Menke, and William C. Tallman; and Juniors—Henry R. Brown, Jr., James C. Broderick, John J. Hess, Jr., John L. Hummer, James O. McDonough, T. Kemp Maples, and William R. Thurston.

## A GREAT SHOW—

Friday night the Wellesley Junior Class presented the annual Junior Show before a more-than-capacity house and received an ovation greater than that given many professional productions.

Produced on a bare shoestring, the show was allowed only two weeks by the College in which to rehearse so that the show would be spontaneous. In addition, all of the income from contributions at the door went to relief, the show's budget practically existing in name only. And still the show was a tremendous success, and the entire show was original from theme to finale.

This show brought forth many thoughts of the tales that are told of our own Tech Show, which died a regrettable death not too long ago. However, the Tech Show went because the money lost each year became too great and most of the leaders of the show invariably transferred to other schools upon academic request.

Apparently the Wellesley show has been able to avoid these difficulties, but we still wish, after seeing the Wellesley production, that we lived in the era of the Tech Show at its peak. Record has it that one Tech Show played on Broadway for two weeks.

We wish to extend our congratulations to the Wellesley Junior Class for its exceptionally fine show, in spite of the extremely nasty cracks about M. I. T. that were bantered about so lightly. The spirit that carried the Tech Show high still lives and is in good hands.

## FINE ARTS AT TECH

The collection of paintings now on exhibit in the Main Lobby reminds us that periodically Technology students, being ever cold scientists, are lambasted about their need for culture, with its appreciation of the finer things in life. And, as always, even after these lectures and bursts of advice, most Tech men are still too lazy to visit the Boston museums, to peruse the great works in the great Public Library, or to attend the symphonies and concerts.

Until just the other day, fine arts at Technology, as far as paintings went, was limited on the most part to innumerable

portraits of famous, or moneyed men. Therefore our hats are off to Mr. Watson and the Museum Committee who had the idea (and the courage) to exhibit the collection of paintings now in the lobby of Building 10. From what we've seen, the exhibit has gone over well and has proven interesting and enjoyable to those who have seen it. We'd like to see the exhibit or its equivalent continued, but with the paintings changed periodically.

It wouldn't be at all out of place to have attached to each painting a criticism by some art student, either from the faculty or from the outside. This added bit would improve many-fold the exhibition's value to the Tech man as a cultural and educational source.

## THE READER SPEAKS

### Step Right Up Boys

Editor, The Tech.

Dear Sir:

In an effort to sample college opinion on the ancient custom of osculation in connection with its sensational February issues expose, "Kissing Must Stop," the editors of SWANK MAGAZINE will pay \$5.00 for every letter—pro or con—printed in SWANK MAGAZINE on "My Ideas About Kissing."

Any under-graduate, graduate student, or member may send in his ideas on the subject. Letters may be written in a serious or humorous vein, but should not exceed 300 words in length. All entries must be mailed to the Editor, Swank Editorial Offices, 247 Park Avenue, New York, N. Y. no later than January 24, 1942.

Designed to revolutionize American osculatory habits, the "Kissing Must Stop" expose reveals that kissing is taboo in Japan; barred in Italy by Mussolini as bad for public morals; and was temporarily banned in several colleges when co-eds went on "kiss strikes."

Contrary to popular belief, the article asserts, kissing started unromantically enough when Roman husbands, on returning home brushed their wives' lips to learn if they had been drinking wine. Lip-kissing is merely a lot of romantic ballyhoo spread by poets and others of their ilk for countless centuries, and scientists say that the thrill of osculation springs largely from the imagination; thus rubbing noses would be absolutely as stimulating.

But aside from these unromantic grounds, the expose reveals that there are other more vital reasons why kissing should be abolished once and for all from the American scene. These scientists, armed with lip-loads of evidence, have emerged from their laboratories to announce that from 80,000 to 1,000,000 germs, mostly harmful, pass from mouth to mouth in every human osculation.

Their views, the article states, do not jibe with those of co-eds who have said, "Kissing may not be so dangerous if you use the right technique," "If you kiss hard enough, you can kill the germs," "Bacteria may go to town under the microscope, but they are pretty helpless in the dark." The scientists have proclaimed that trench mouth, measles, pneumonia, tuberculosis, whooping cough, syphilis, scarlet fever and a host of other diseases are spread by kissing.

What do you think?

Editor, Swank

Magazine—For the Man Who Knows

### They Say

November 15, 1941

Editor, The Tech.

Dear Sir:

From the midst of three-dimensional flow theories, variable densities, parasitic drag, and aspect ratio—emerges Wellesley, our pigtailed trailing behind us and your sport jackets (if we can get them . . .) on our backs! Yes, Wellesley emerged—all over three pages of *Tu*. Although the article did have some typographical errors (such as calling the typical Harvard man a "droop"), we can see that you Technical Terrors have taken time off to develop the fine art of insight.

Although you think you know all our opinions, we'll be unpredictable and tell you something you didn't know. Think of the poor Wellesley lass who has to survive an evening of the music of unheard of bands like Gene Krupa everytime she is dragged to a Tech dance! Or has to endure the dull monotony of watching a Freshman-Sophomore Glove Fight—such a tame little affair! But you all know how we just adore to hear your sweet and tender whisperings—about vortex theory, and your passionate outbursts—about lateral stability.

Foolish tradition has tied Wellesley up with Harvard, but naturally—we have no objections to enlarging the tradition! Any ideas? We might suggest a race between the Wellesley crew and Tech sail boats,—that is, if the results wouldn't give you an inferiority complex. . . . After all, if Yale can hitchhike to Mount Holyoke with a bathtub, certainly you Tech brainstorms ought to have some way of getting sails to Lake Waban!

And so, friends of the wind tunnel and the blast furnace, it's all yours from here on. . . .

KATHLEEN LUCAS, '44

RUTH ELLEN LATZER, '43

Reporters, Wellesley College News

(Editors Note: These young ladies are apparently laboring under a most unfortunate illusion. And so young, too. Evidently they have yet to live!—)

## For Boys To Play

by Stewart Rowe and Joseph Tankoos

Last week-end found us both far from the scene of Tech festivities, but reports reaching this office from usually reliable sources seem to indicate that operations in all sectors progressed quite satisfactorily.

In the "We told you so" department comes the Sophomore Prom. All our sources report a really smooth party: some claim that it exceeded in enjoyment the Sophomore Dance of the Class of '43, the veracity of which statement we seriously doubt.

Perhaps this is a little outside the boundary of our rightful domain, but we think that an opportunity should not be missed to praise the latest issue of Voo Doo. Hawk Shaw and his friends, and incidentally the Voo Doo staff, have put out a presentable magazine, which is far from being a dis-

grace to the fair name of Phosphorus. Literature piling up on our desk tells of a huge, mammoth festival of music and dancing and revelry at the Copley Plaza Friday night. Something in the line of a Harvard-Yale ball to precede the football game. The Foyer at the Copley will be decorated as an Argentine cafe, complete with Rhumba band. The main ballroom will hold Krupa and Jack Marshall's orchestra, alternating on the stand. The dance is being run for a charity—sort of U.S.O. for Harvard and Yale men in the service in the east. If you like Harvard men and rhumbas and Krupa and debutantes, go ahead and spend \$5.00. It will be a good brawl.

Another letter reaching us asks us to mention the square dancing eve-

# Sophomores Beat Frosh By Seven Points In Interclass Track

## Bob Meny Stars In Triple Win; Juniors, Seniors Badly Beaten

Winning seven of the fourteen events, the Sophomores took the annual fall interclass meet last Saturday by beating the favored freshmen 81-74. Far behind the two lower classes trailed the Juniors with 35 points and the Seniors with 11 points.

Fifteen of the victors 81 points were scored by high scorer Bob Meny, '44, who took first place in the 100 yard dash, 220 yard dash, and broad jump. Dick Wareham, '44, broke the record for the fall interclass meet by hurling the 16 pound brass sphere 150' 9" to win the hammer throw.

### Stewart Wins Twice

Larry Stewart, '43, walked off with the two hurdle events, winning both the 120 yard high hurdles and the 220 yard low hurdles. Bob Miller scored five points for '43 when he won the one mile run. Winner of the javelin throw was Dick Van Voorhees, also of '43. Sid Hall, '43, finished first in the quarter mile.

The seniors managed to score only in one event, the two mile run. Mal McGregor and Heinie Shaw took the two lead places with Art Gow finishing fourth. The freshmen took only one first place when Bob Dodd won the discus throw.

Thirty-five of the winner's score came from first places. George Ziegler won first place in the half mile event, and Johnnie Adams cleared the high jump bar for another Sophomore win. John Bavicchi heaved the brass ball to a shot put win.

# Football Tourney Nears Finals

## Eleven Teams Left As Beaver Key Contest Enters Another Round

As the Beaver Key Touch Football tourney enters another round, eleven teams still remain in the competition seven having been eliminated in the games played last Sunday. Only two dorm teams, Goodale and Senior A, have been successful enough to remain in the running.

The results of Sunday's contests are as follows: Alpha Tau Omega lost to Phi Mu Delta, Sigma Chi defeated Phi Kappa, Delta Tau Delta beat Phi Delta Chi, Phi Kappa Sigma was beaten by Phi Gamma Delta, Senior A lost to Sigma Alpha Epsilon, Goodale beat Wood, 5:15 Club forfeited to Chi Phi, Delta Kappa Epsilon defeated Phi Delta Epsilon, and Kappa Sigma forfeited to Delta Upsilon.

Remaining in the Tournament are: Phi Mu Delta, Sigma Chi, Delta Tau Delta, Phi Gamma Delta, Sigma Alpha Epsilon, Goodale, Chi Phi, Delta Kappa Epsilon, Delta Upsilon and Senior A.

The next series of games are scheduled to take place on Sunday, November 23.

# Tech Sailors End Season With Victory

## Crowley, Coe Down Bruins, Crimson; Coeds Also Win

By taking first and second places in the final race, the Tech sailors nosed out the Harvard yachtsmen to capture the triangular regatta held Sunday under the colors of the Harvard Yacht Club. The Engineers garnered a total of 73 points to the Crimson's 62, while the other competitor, Brown, which did not threaten all day, collected only 45 points. A light but increasing westerly wind on the Basin made the last deciding race a thriller.

The Tech tars monopolized individual scoring also, as Tom Crowley took first with 29 points, followed closely by Jerry Coe with 28. After Tech took the first with little trouble, Johnny Burton crossed the line ahead of the field in the second race to put the Crimson ahead. At the leeward in the third, Harvard had the positions to gain a tie but the Engineers rallied to win by taking first and second places in the final contest. This race enabled Tech to conclude its season with a victory.

### Co-eds Win Meet

On Friday the Tech co-eds also proved their superiority as sailors when they defeated the defending champions from Radcliffe by a decisive margin in the annual Greater Boston Women's Intercollegiate Dinghy Regatta. Tech amassed a total of 41 points, while the scores of the other schools were Radcliffe, 32; New Hampshire, 31; Jackson, 26; and Sargent, 19. Tech also dominated the individual scoring as Jane Chance took first and Domina Spencer followed with second place honors.

## Booters Drop Last Game Of Year To Green, 4-0

The Dartmouth booters beat the Tech Soccer team by the score of 4-0 last Saturday, in a game played at Dartmouth. The Dartmouth team proved to be stronger than any other team that Tech has played this season, and the game was marked by hard fighting, and lots of "punch", according to Captain Bob Faye, '42.

Star of the Dartmouth squad was Eckhart, who scored two of the four Green goals. La Valle, a Soph forward, starred for the Tech team.

## Wrestling Tournament To Start On Nov. 25

The annual fall wrestling tournament will be held this year from November 25 to November 27. Since no lettermen will be allowed to enter, all men with or without wrestling experience are urged to report.

A total of twenty-four medals will be awarded to the winners in the various classes. Men interested in any of the eight weight classes should sign up as soon as possible in the Hangar Gym.

## Six Letter Men Return To Lead Basketball Team

### Ten Game Schedule Starts With Harvard; Middlebury Next Foe

From a large turnout, Coach H. P. McCarthy, has selected those who will make up the regular varsity Basketball squad. With a nucleus of six letter men, including co-captains Ernie Artz and Jack Whelan, the squad is practicing daily in the Hangar Gym in preparation for its first game, on the fifth of December, at Harvard.

Other returning letter men are: Jerome T. Coe, '42, Thomas J. Dolan, '43, Andrew F. Hillhouse, '43, George C. Marakas, '43. There are also six Sophomores on the squad from last year's freshman squad. These are: Alfred L. Hart, Fletcher H. Moore, George A. Schutte, Caleb S. Taft, James Woodburn, Jr., and Richard E. Whiffen. Alvin Brodie, '43, Angel A. Del Valle, '43, and Bernard Levere, '42, complete the squad.

After the game with Harvard on December 5, there are nine basketball games scheduled. On the 9th of December, Middlebury comes here for a game, and on the 16th the team goes over to Tufts. Vermont will play here on the 18th, to wind up the sport until after Christmas. The next game is at Williams on January 10th, and on the 16th the team invades Brown.

## Squash Jayvees Lose; Frosh Win Over Sophs

The Technology jayvees squash team was shutout by Harvard Medical School by the score of 5 to 1, in a match played on the Tech courts last Thursday. Wylie alone scored a win for Tech, defeating Babcock 15-7, 15-6, 15-8.

The frosh-Soph interclass squash matches resulted in a close 3-2 victory for the frosh, further extending their Field Day victories. Winning freshmen were Spankie, Lockwood and McClave over Curry, Knutzen and Hobbs respectively. Rosenberg and Carnell of the class of '44 retired Bennett and Smith for the Soph winning tallies.

# Novars End Second Season With 35-0 Loss To Harvard J.V.

The Harvard Junior Varsity footballers turned back the Novars 35-0 in a one-sided game played at Soldiers Field last Saturday. Harvard scored twice in the first quarter, and once in each succeeding period. Sergeant Hunt, coach of the Novars, claims that his boys deserve credit for playing good football against such a strong team.

Caleb Loring, Harvard right half, opened the scoring on a short line plunge early in the first period, Bob Fisher making the conversion. A little later Tom Cowen, flashy Crimson full-back scored the second touchdown on a similar play. Fisher again added the extra point.

The next tally came in the second quarter, when Sophomore Steve Gifford scored on a sixty yard run around right end. Brooks Heath scored the fourth touchdown on a smash through the line from the ten yard stripe, and Chase ended the touchdown spree with a twenty yard run in the last period. Bob Fisher also kicked the extra point after each of these last three touchdowns.

Bob Bunn, fleet Tech specialist in end runs, was one of the casualties of the game when, in the last quarter he dislocated his thumb. His teammates were unable to halt the Harvard drive, and the fifth touchdown soon followed. The Novars then tried a few running plays, and Bob McBride completed a twenty yard pass just as the game ended.

The Novars were scheduled to play their final game on Friday, November 21st, when they were to meet the Boston University freshmen on Briggs Field. This game has been canceled, so the Tech eleven has lost the one chance to wind up its season in a blaze of glory. Although the Novars defeated Tufts J. V., they were edged out by the Fore River Apprentices. Their worst defeats have been at the hands of Lowell Textile and Harvard.

The Tech lineup for the Harvard game was as follows: R. E.—Dunwoody; R. T.—Fleming; R. G.—Anisz; C.—Foote; L. G.—Givens; L. T.—Sadowski; L. E.—Evans; Q. B.—Leader; R. H.—Crosby; L. H.—Bunn; F. B.—McBride.

## Local Artists Exhibit Works

Portraits, Still-Lifes  
By Contemporaries  
Shown In Main Lobby

An exhibition of the work of a group of Massachusetts artists of the American Artists Professional League is being shown in the main lobby of Building 10.

The collection of water-colors and oils includes the work of A. T. Hibbard, Barbara Bradford, Harry Sutton, Jr., H. Lester Stevens, Frank W. Benson, Will Davis, Elizabeth Huntington, John G. Wolcott, Gertrude T. Tonsberg, Charles A. Mahoney, Charles Demetropoulos, Margaret F. Brown, Frederick Thompson, Galen J. Perrett, and Agnes A. Abbott.

The exhibition, which represents a wide variety of landscapes, portraits, and still-life subjects, will be on view daily from 9:00 A.M. to 5:00 P.M. until December 6.

## Cercle Francais Sponsors Tea

The committee of the French Clubs of the Greater Boston Colleges were received and entertained by the Cercle Francais on Sunday, November 9. Present were students from Boston College, Emmanuel College, Harvard University, Lasell Junior College, Radcliffe, and Simmons. The occasion was a tea, given in Pritchett Hall, to acquaint the members of the various French Clubs with each other.

Those in attendance were honored by the presence of some faculty members, among whom were Professor Richard F. Koch, Professor Earnest F. Langley, Professor Salem, Professor Norbert Wiener, Professor Rosenthal and Professor Hadamard, a well known mathematician of the University of Paris, who is touring this country and lecturing on mathematics in major colleges.

### Entertainment

Entertainment was provided by Eugene D. Calabi, '43, Muslihittin A. Tunca, '41, and Gordon Ralsbeck, '45, who used the media of accordion, voice and violin to display their respective talents.

Plans for a future dinner with the Cercle Francais of Lasell and a play in collaboration with Lasell and Emmanuel Colleges were discussed.

**ICE SHOW**

Miss Marjorie Mills, who holds forth daily on a domestic broadcast over a New England network, made known to hordes of eager housewives one day last week what she had seen and heard recently in the abode of the local Lambie Pies (Lambda Chi Alpha's to you). Fortunately or unfortunately, she had witnessed a pledge demonstration and heard freshmen give forth with such items as the grade of greases used in Army vehicles, the names of all the girls' schools within a radius of fifteen miles of Boston, and the results of research conducted to find the weight of the paint on the anchor of the battleship Arkansas. No doubt this went well with the cook's recipe for making rolls for the boys.

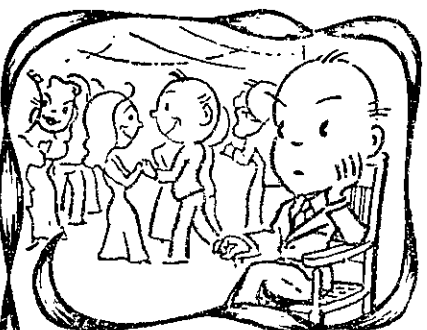

## For Boys To Play

(Continued from Page 2)

nings, complete with instruction in old-fashioned dances, which are run every so often primarily for graduate students. The next one will be this Saturday in the Hangar Gym, beginning at 8:30. Undergraduates are welcome as long as there is room.

Ah, yes, the theater. A farce called "Chills and Fever," which has received excellent reviews in other cities where it has played, opened last night. It seems that it is a play kidding scientists: it might be interesting in a crude sort of way.

If you have a drag with Messrs. Olsen and Johnson, you might be able to get tickets to "Sons O' Fun," their new comedy, at the Shubert for the rest of the week.

## Coeds to Act In New Play

### Prof. Fuller Praises Cast Of Season's Opening Production

In presenting Molnar's play, "The Guardsman," Dramashop will introduce two new Technology coeds at this year's initial production December 5 and 6 to be held in the Elizabeth Peabody Playhouse. The coeds, Frieda Omansky, '46, and Mildred Edwardson, '46, are the Department of Architecture's latest contribution to Dramashop, and they are both exceptional players, according to Professor Fuller, in charge of production.

### Play Is Comedy

"The Guardsman" is a broad drawing-room comedy with subtle, objective wit. It dramatizes the tale of an actor's attempt to keep the attention of his flighty lady-love. Disguising himself as a Cossack soldier to satisfy her never-ending desire for the romantic, he succeeds rather well, until, rather than discover her to be unfaithful, he confesses his identity.

While "The Guardsman," usually demands older players, Prof. Fuller feels that the present members will uphold the previous standards of Dramashop. The cast includes Andrew A. van Teylingen '42, and Janet Norris, '42, as the leading characters. Gerald Firth, '43, as the critic, Frieda Omansky, '46, as Mama, Mildred Edwardson, '46, as Liesl; Jorge Ross, '43, as the usher and Robert L. Lichten, '43, as the creditor.

Tickets will go on sale shortly for the production.

## Get Gridiron Cards Now In Tech Office

There are a considerable number of Gridiron subscription cards in Room 301 Walker, The Tech office, which have not been called for. All those wishing to collect the issues for which they subscribed must call for these cards between 1:30 and 5:00 P.M., any afternoon Monday through Friday.

## Soph Prom

(Continued from Page 1)

Chaperones for the affair were Professor and Mrs. Raymond D. Douglass, Dean and Mrs. Thomas P. Pitre, Professor and Mrs. B. Alden Thresher, and Mr. Walter C. Wood. President Karl T. Compton was detained by his work and was unable to attend the dance.

Langdon S. Flowers, Soph prexy, headed a committee of thirty-five Sophmores who handled all arrangements. In charge of the ticket sales was Sten Hammarstrom, '44, helped by Garry C. Myers, Jr., '44, and Martin King, '44.

## Senior Week

(Continued from Page 1)

man heads the committee which will be responsible for all sales arrangements.

The stag banquet details will be carried out by Maurice E. Taylor, and John M. Le Bolt will plan the Tea Dance. Carthrae M. Laffoon, Jr., will be in charge of the Class Day program. Albert F. Clear, Jr., is handling the Pops Concert. John S. Arend has been assigned the task of arranging for the baccalaureate exercises. Jerome T. Coe, president of the class, is a member of all committees ex-officio.

## Activities

### International Club

Jake Wirth's in Boston will be the scene of a get-together for members of the International Club and their friends at 9:00 P.M., Friday, November 21. Beer and dates will be the main diversion of an evening devoted mainly to an opportunity for the members and friends to become better acquainted.

### Microchemical Society

Professor Edward R. Schwarz of the department of Mechanical Engineering will speak at 8:00 P.M., tonight in Room MB-23 of the Mallinckrodt Laboratory at Harvard University. An authority on textile technology, Professor Schwarz will address his group on the subject of "Developments In Techniques of Textile Microscopy."

Although his lecture will be delivered at Harvard to university students, the lecture is open to Technology men, and all interested are welcome to attend. The talk is being sponsored by the Boston Microchemical Society and is one in a series of important lectures being delivered on textiles and microchemistry.
